

“I really don’t know where I’d be without SASH.®
It’s great knowing there’s someone I can call on
if I need support. One time I landed in the hospital
after injuring myself, and I had no sooner gotten there
than my SASH coordinator showed up to check on me

— even though it
was the weekend.

The nurses are
extraordinary
too. They’re
just really
super
people.”
